GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Going on their own Hook.

OMAHA, Neb., Oct. 3.—About three months ago it was announced that the Indians at Red Cloud Agency would be moved to a new reservation, and orders for transfer have been constantly expected ever since, but have not yet been received. The Indians are pleased with the new location, though reports to the contrary have been circulating, and have been impatiently awaiting orders for removal, but affairs have dragged tediously along until the Indians have become thoroughly disgusted with the slow way of doing business, and last week, after receiving their rations, they all gathered up their traps, and, without the assistance of agent or government authorities, struck out across lots for the new reserve. There was no violence. There are about 6,100 Indians in the body, and they took with them a cattle herd in which there are about 600 head.

Indian Disturbance in Nebraska.

SIDNEY, Oct. 2.—A report from Ogallala this afternoon says the Indians were seen a few miles south of there. A telegram signed by many citizens was received by Col. Thornburg, who telegraphed the citizens immediately that aid would be sent them. A detachment of soldiers with 18 days' rations and two hundred rounds ammunition to the man, and a wagon train loaded, on a special train with engine attached, awaits orders. Thornburg requested citizens of Ogallala to send out scouts south of the town, ascertain the location of the Indians and better enable him to act upon arrival at Ogallala. It is thought by many that this is a decoy by a small band of Indians to draw the attention of troops, to better enable the main body of Indians to effect a crossing of the U. P. R. R.

EUROPEAN NEWS.

The Great Bank Failure.

LONDON, Oct. 3.—The *Times*, in its financial article, states that the City of Glasgow Bank had one hundred and thirty three branches. It had a progressively increasing dividend for several years past, until it reached 12 per cent. It would be incorrect to say that the disaster was unexpected. On the contrary, in banking circles it created no surprise, for the bank had been losing credit gradually for ten years past, yet the Scotch banks in London were not in possession of information which showed that the end was actually near until Tuesday morning. Rumors of the bank being in difficulty had been so often circulated before within strictly banking circles, that a repetition of them did not excite particular interest on this occasion. The business of the bank had been conducted for years upon unsound principles, and from the fact that other such banks having decided to let the bank stop, it is inferred that it is a bad case. Operations upon an enormous scale had been incorrectly entered into with Indian produce and Australian wool, some $14,000,000 having been accepted for the account of three firms. Large advances had been made to firms in the iron trade in the north and utterly reckless support appears to have been given to builders. The immediate cause of the failure was the impossibility of any longer getting bills drawn from India on the bank of Glasgow. Its bills were discounted in the London market, a circumstance which explains to some extent the American oscillation. For some months past, in-bills demanded for loans, these bills had been sold in India to Indian banks ostensibly against the shipment of produce and ultimately came upon the discount market and the terms for negotiating having steadily advanced, instructions were at length telegraphed to Indian branches to take no more bills, and so soon as it was no longer possible to keep the open credit system going and pay afloat the bank closed its doors. The liabilities of the bank are estimated at $40,000,000; acceptances slightly below $15,000,000, and deposits $40,000,000. The unlimited liability of shareholders may possibly secure depositors. The authorized note circulation was only £72,000, but according to last account the issue is between £600,000 and £700,000, against nearly all which the law requires to have gold. We believe we are correct in saying that the deplorable catastrophe is with reference to Scotch banks entirely an exception, and that no other banking institution in Scotland is in any way mixed up with the City of Glasgow bank, or has been engaged in a business of a kind which led to this failure. Attempts have been made in India to complicate matters by saying that there was a panic, but there has been no panic. The Bank of England is in an exceptionally strong position relatively to the extent of business going on, and the state of affairs is very different to what it would have been had disaster happened to a bank whose soundness had been above suspicion. The *Financier* anticipates no additional bank failures, but it says some mercantile failures can hardly be avoided, which may extend into the iron districts of North England.

LACHINE, Oct. 3.—Courtney and Hanlon both started at 4:58. Hanlon soon shoved ahead, and at two-thirds of the first mile was two lengths ahead. At the mile boat the men were even. At the 1½ mile stake Hanlon was one length ahead. Near the two mile buoy Hanlon was two lengths ahead again. Passing the two mile buoy, Courtney had reduced the distance to one boat length. At the 2½ mile post Courtney was up even with Hanlon. Hanlon first turned the buoy at the third mile. Courtney brushed him and they were about even. At 3½ mile Hanlon was leading. At the four mile buoy Hanlon was still leading by about a length. At the 4½ miles Hanlon was leading three lengths. Hanlon won by about two lengths. Time, 35½ minutes.

The "Put and Call Chap" in Limbo.

SAN FRANCISCO, Oct. 2.—M. McDonnell surrendered himself to the police authorities yesterday afternoon, complaints having been made by eight persons accusing him of obtaining their money by false pretenses, while acting as member of the defunct put and call firm of McDonnell & Co. Accused furnished $1,000 bail on each charge. When the case was called in the police court this morning the prosecuting attorney stated that the presence of C. McDonnell, a witness to all the transactions on which complaints were founded and for whom two warrants have been issued for forgery, was necessary for the prosecution. The case of M. McDonnell was accordingly continued until Monday to enable the prosecution to obtain attendance of the missing member of the firm.

A Tragical Affair.

VALLEJO, Oct. 3.—A correspondent of the Vallejo *Chronicle*, writing from Middletown, Lake county, gives intelligence of the killing at that place of Charles Bates, the engineer employed at the Napa consolidated quicksilver mine, by Thomas Dye, on the afternoon of the 1st of October. The account represents the killing as deliberate murder. The two were strangers to each other, but they had had an altercation a short time before the shooting, but were parted. Meeting casually again in front of the Lake County House, Dye immediately and without a word, pulled his revolver and fired. The ball entered Bates' breast and passed through the body. He lingered for four hours and died. Deceased was a native of New York, and was 26 years old. What added to the tragedy was the fact that he had a call to town with his wife to attend the marriage of his sister, and the nuptials had been celebrated but a few moments before his murder. Dye was under the influence of liquor. He was immediately arrested, and at the time of the correspondent's writing was surrounded by a strong guard to protect him from being lynched by the excited inhabitants.

YREKA, Oct. 3.—The attendance to day at the Siskiyou Agricultural Fair was even better than yesterday. The pavilion is well filled in all the different departments, and last evening there was a perfect jam to the close.

Siskiyou County Fair.

YREKA, Oct. 2.—The thirteenth annual fair of the Siskiyou agricultural society commenced to day, and will undoubtedly be the most successful ever held by the society. The pavilion is filling up rapidly and shows much better than usual for the first day. There was a large crowd at the park to-day to see the races. The first race was trotting, three-in-five, for all horses who had never beaten 2:45. The entries were Mrs. Sutherland's sorrel mare Hannah Lee, by Index, and Sam Magoffey's Siskiyou Girl, by Gladiator. Lee won in three straight heats. Time—2:53, 2:50, 2:57½. Siskiyou Girl acted very badly, breaking on the first turn every heat. The second race was running, single dash of a mile, for three-year-olds and under. Entries, Steve Booth's Dave Kirby, two-year-old, by Scamperdown, E. Flitner's Siskiyou Boy three-year-old, by Kirby Smith. House.

House met at 10 A. M. and reading of journal dispensed with.

Judiciary committee reported against H. B. 4, to regulate fees of clerks and sheriffs.

Galloway asked the effect of adoption of the report.

Chair thought it same as indefinitely postponed.

Hewitt explained the bill. Said it was to save counties from unreasonable charges for docketing actions brought against them. It cost Linn county $2,600 where $300 would be ample.

Stearns said county clerks assured him the bill as proposed would increase, not diminish their fees.

Evarts said the docketing fee of 75 cents was not applicable to county cases, and quoted law. They had no right to charge 75 cents for entering a small claim against the county. The bill increased the clerk's fees 5 cents for filing an account, instead of 10 cents, as now.

Gates thought clerks should have the same fee against the county as against individuals, but simply filing a bill was not docketing an action, as there was no litigation.

Purdin thought clerks' and sheriffs' fees were exorbitant and favored general reduction in large counties. It is said that these offices in Multnomah are worth $25,000, which was too much. Now clerks and sheriffs controlled primaries and elections, and if they had less fees they could not afford so much expense.

Hewitt explained further why the clerk was allowed this fee. Claims are entered for the action of the county commissioners, and acted upon severally, in open court and each case is a special action and fees charged.

Lee thought the matter not made plain. Authorities disagreed. He wanted to reduce all unreasonable fees.

Hughes moved to lay on the table; carried.

Committee on claims recommended H. B. 136 as substitute for H. B. 51, to extend time to counties of Umatilla and Baker to return their assessment roll to third Monday in January, 1879, and equalize assessments for 1878, owing to losses by Indian war. Under suspension of rules this bill was read three times and passed.

Judiciary committee reported favorably to H. B. 16, relating to recovery of real property, with amendment extending time for commencement of action; report adopted and bill ordered engrossed.

Judiciary committee reported amendment to H. B. 43, relating to redemption of land sold for taxes; report adopted and bill ordered engrossed.

Also against passage of H. B. 55, for punishment of vagrants and tramps; on motion of Green the bill was again referred to special committee, Green, Hendricks, Chenoweth, Forbes, Winzingerode.

Also H. B. 57, as to notice of pendency of action affecting real property; favorably considered and engrossed.

Also H. B. 58 without recommendation, limiting the time for commencement of actions to recovery of real property to 10 years.

Stearns opposed an amendment fixing seven years and said the time specified in most states was 20 years.

Gates also thought seven years two short a time. Honest tillers do not fear an action; dishonest ones do.

Smith said there was great trouble in this county and probably through the state when great hardship had resulted. Ten years was right in his opinion, and if that limit had been fixed parties in Salem, who had bought property in good faith, would not have suffered. People had hunted up flaws in titles to speculate upon. Amendment lost and bill considered engrossed.

Judiciary committee also reported H. B. 50, without recommendation, relative to deeds made by executors and administrators.

Smith moved it be engrossed; carried.

Also H. B 62, favorably, relating to the payment of taxes by county treasurers; ordered engrossed.

Also H. B's 63, 67 and 69 unfavorably, because they conflict with bill of rights. These bills would grant rights to different persons to uncertain streams exclusively, for keeping booms, rafting, &c., all of which were indefinitely postponed.

Also H. B. 68, favorably, to enable persons engaged in logging to procure right of way; considered engrossed.

Also that H. B. 77 be referred to committee on corporations; report adopted.

Also H. B. 80, to regulate gas in cities, and recommend reference to Multnomah delegation; adopted.

Committee on commerce reported amendments to H. B. 37, relating to pilotage. During consideration of numerous amendments the house adjourned.

AFTERNOON SESSION.

House met at 2 P. M.

Consideration of the pilot bill was resumed.

Thompson explained that increase of business induced to permit coasting vessels to cross the bar without a pilot at half rates.

Stearns thought coasting vessels without pilots should pay nothing. It was an expense to commerce.

Grant and Tyson thought half pilotage reasonable when boats had to speak vessels and other services.

Thompson presented a letter from shippers and shipmasters that it is necessary for a pilot vessel to cruise outside the bar.

Reed and Hewitt thought the committee understood the matter.

Green thought it was hard on the coasting trade and did not look democratic.

Thompson explained that the difference between San Francisco and the Columbia river was so great that the same rule could not apply. Coasters do not complain, except that they want more pilots.

Brady thought Tillamook wanted coasters to pass free without pilots. Flavel said it was right they should.

Purdin took the same view.

The house refused to call in outsiders for their views.

Thompson said the committee had heard everybody and found the most powerful lobby inside the house.

Acton wanted protection for Americans trying to do a little business.

The half price amendment of the committee was adopted and the bill was ordered engrossed.

Committee on commerce reported H. B. 19, relating to compensation of the canal commissioners, favorably; ordered engrossed.

Also H. B. 70—Appropriating $2,000 for a fishway at the falls of the Willamette with amendment, which was lost. The bill passed under suspension of the rules.

Also reported an amendment to H. B. 121, regulating foreign corporations; adopted and ordered engrossed.

Also in favor of S. B. 1—Amending an act prohibiting steamboat companies from building railroads; adopted and ordered engrossed.

Also an amendment to S. B. 33—Relative to the sale of arms and liquors to Indians; adopted and ordered engrossed.

The committee on elections reported against H. B. 100—Concerning elections.

Evarts explained that the bill provided for a record of votes, so that illegal votes can be thrown out; ordered engrossed.

Also H. B. 73—For the appointment of justices by the county court in certain cases; ordered engrossed.

Also against H. B. 55—To fix the time for holding legislative session; indefinitely postponed.

Also against H. B. 56—Relating to the government and support of the penitentiary; the house refused to order it engrossed.

The committee on education reported an amendment to H. B. 88—Relating to the Oregon Institute for the blind, limiting pupils to 8 years old; which was debated and adopted.

Lee and Grant suggested amendments, and the bill was recommitted.

Also reported H. B. 132—Substitute for 12 and 30; rules suspended and read the second time and ordered engrossed.

The committee on printing recommended the adoption of S. J. R. No. 3—For the purchase of 250 copies of 1865 Oregon reports; report adopted and joint resolution concurred in.

The house adjourned.

FRIDAY MORNING, OCTOBER 4, 1878.

REVIVAL OF PROSPERITY.

There is no subject so prolific of interest at the present time as the revival of what appears to be a new era of prosperity. A leading trade journal of Chicago says that in the business centers of the great middle states the despondency which everywhere prevailed only a few months ago has been succeeded by the very opposite feeling. There is less restraint in business transactions, money is easier, and products of all kinds of industry are moving with far greater freedom. Before and during the war fortunes were very easily made—by speculation, by mining, by the discovery of oil, by the sudden fluctuations of stocks, etc., and these fortunes, accumulated without labor, economy or industry, had a most damaging effect upon the public mind. We became a nation of speculators. Men's thoughts were turned from honest, plodding labor to schemes for the accumulation of wealth immediately and without work. The ordinary means of livelihood became too slow. Everybody wanted to cast off the rule which nature had prescribed, and get rich in a day. Men shrank from the old plan of toil and slow accumulation. Once drawn into the arena of speculation they acquired a feverish desire to enter upon a speedy and extravagant expenditure for personal gratification. There was no end of lunacy. No sooner had these wild ideas become fixed in the popular mind than the belief became general that money was not an essential to wealth; that credit was better than cash; that thousands of miles of railroad could be built every year at four times their proper cost by the mere issue of bonds; that mortgages for indefinite sums, and bearing the most enormous interests, could be issued with freedom, and would take care of themselves. The country is strewn with evidences of debt. Money was borrowed with recklessness, and not a dream of the difficulties of future payment disturbed the slumbers of the most extravagant operator. The insanity was universal. No class of society was free from it. Everybody supposed he was getting rich, and lived accordingly. Production was lost sight of, general apathy pervaded all our industries; all were buying and selling each other's bonds, notes, mortgages, etc., and always, as they supposed, at immense profit. It is scarcely necessary to say that there was an end to this business, sudden, disastrous and overwhelming. For five years the country has been vainly struggling amid the general wreck, and it is only now recovering from the debauch of idleness and prodigious wastefulness. The speculative bubble collapsed, and the wealth supposed to have existed in credit vanished; the riches, other than the actual, legitimate products of labor, perished, and we were brought face to face with the inexorable truth that there can be no aggregation of riches save that resulting from honest accumulations of labor. Industry can alone create individual and national wealth, and the acquisition of riches is, as a rule, the result of slow, unremitting labor. If there are exceptions to this rule they are not more numerous than the wasteful, profligate destruction of fortunes by those who suddenly acquire them.

TARIFF RELAXATION.

Every observer takes note of an actual tendency of the times toward extension of the liberty of international trade. The arguments used thirty years ago in favor of high protective or prohibitory tariffs are seldom heard now. The conviction is growing that what was accepted as a good policy for our country forty years ago is becoming obsolete under the changed conditions of the present time. There is no active struggle between the doctrine of protection and that of free trade, but the principle is gradually making its way in the public mind that relaxation of the legislative fetters which hamper international trade is becoming more and more a necessity, as industry develops and commerce extends in every quarter of the globe. In many lines of manufacture, in which heretofore we have had no chance to meet other and older countries, we are now actually competing with them; and we shall succeed more and more as we remove the duty from necessary raw materials and avail ourselves of all our own resources and advantages. It is certain that the day will come when we shall see the fallacy of diverging from the main object of a tariff, which is to raise revenue, in order to minister to the greed or particular interests. In that course, so often pursued heretofore, there is no assurance of general prosperity.

The necessary way to make any business pay is to give strict attention to it. The man who attends closest to his business, even though he may not have the natural talent which some of his competitors possess, is most sure to succeed, while those who are neglectful and careless, no matter how great their natural parts, will fall behind and in the last fail altogether. Farming is no exception to the general rule. No man can make farming pay who does not strictly attend to it; who does not take advantage of all the best modes of cultivation of the soil, planting and harvesting and marketing crops; who does not secure the best labor saving machinery and keep it in the best of order while in use, and house it from the weather while not in use; who does not obtain and keep good stock to do the work on the farm, as well as for breeding purposes; who does not secure good and reliable work hands, with skill and ability and will to do his work in proper time and in proper manner. Many farmers of to-day allow their unnecessary expenses to eat up all the products of the farm and leave nothing for profits. They live too much like townspeople, from hand to mouth, and have too many grocers' and butchers' and even vegetable venders' bills to pay. Farming doesn't prosper under these circumstances and never can.

The editor of the *Catholic Sentinel* again covers a whole page of his paper with an attempted exposition of his theological views, called out by THE OREGONIAN'S remarks on the nature and physical causes of yellow fever, and on the futility of any expectation of removing those causes by intercession with the Almighty, while neglecting sanitary efforts. The argument of the *Sentinel* when reduced to its last analysis is that the true church, by supplication or importunity, may subject God to its power. Devoutly the *Sentinel* declares that "the dogmas proclaimed by the church can never be in error." Of course there is no reasoning with that position. The editor also brushes away everything that experience has ascertained or science developed concerning the conditions under which such results as yellow fever are produced or averted, with the remark that "modern science is merely a scheme of contradiction developed by erratic mental evolution." This, truly, is that "medieval ecclesiasticism" of which we spoke recently, projected into the latter days of the nineteenth century. And it is as utterly untenable as that wisdom of "dogmatic theology" which forced from Galileo a recantation of the true theory of the solar system.

The *Sanitarian* for October says that the fact that yellow fever has not prevailed in New York and Philadelphia and several other cities north of its more usual latitudes, the past summer, is not by any means due to certain acts of inhumanity which have been committed against the sick afflicted with it, and the well flying from it, but to the good fortune of these cities in that while they tolerate the local conditions, they have not been subject to a continuous high temperature for several weeks—about seventy-five degrees—also necessary to it. But the present exemption is no guaranty for the future. So long as people tolerate the local conditions, they continue to risk a recurrence of an exceptional season of high temperature with results the same as have been in the past.

Our correspondence from Salem states that H. J. M. No. 3, relating to the Northern Pacific railroad, will be reconsidered. It ought to be. This memorial requests the passage by the house of the bill which has passed the senate. As if to be consistent in injudiciousness and error it recommends the construction of a narrow gauge over the unfinished portion of the route. The legislature certainly does not want to hamper this enterprise further, and therefore no doubt will reconsider the memorial.

The Republican convention of New York was overwhelming against the class known as "Administration Republicans." Of sixty delegates from New York city only three were of the administration class. The effort to crush Senator Conkling has failed utterly. He has his party quite solid at his back, and if it carries the legislature he will certainly be re-elected.

Even after the most hasty look through the state treasurer's report, nobody will wonder that the state is largely in debt. The officials have "drawn" grandly.

SANGUINARY AFFAIR.

A CHINAMAN SHOT TWICE HIS HEAD CUT OPEN AND ONE OF HIS HANDS NEARLY CHOPPED OFF—TWO CHINAMEN IMPLICATED—ONE UNDER ARREST

Yesterday afternoon about 3 30 o'clock a bloody affair occurred at the Joss house on Third street resulting in a young Chinaman named Chin Su Ying getting shot twice and also receiving a fearful gash on the head. One of his hands was also chopped nearly off. As near as can possibly be ascertained the particulars of this sanguinary affray are about as follows: For several days past the Chinese of the city have been holding religious services in their Joss house. Young Chin Su Ying in company with a companion visited the Joss house in the afternoon to witness the ceremonies. He was in the third story of the Joss house when he was suddenly set upon by two Chinamen named respectively Charlie Quang and Lee Chung. One of the assailants attacked the youth with an ax striking him on the head and cutting a fearful gash. As the lad threw up his hand to ward off the second blow of the murderous weapon he received a cut almost severing that member. Just at this time the other assassin fired two pistol shots at the victim. The weapon was a muzzle loader and carried a ball a little larger than a buck shot. The assassin was standing only a few feet away when he discharged the weapon. One of the balls struck a few inches below the navel and the other in the region of the stomach. Both passed through the poor fellow's body. On receiving the murderous blow and the shots Chin Su Ying sank to the floor unconscious, and up to 8 o'clock last evening had not been able to utter a word but lay in a semi-conscious condition.

When the assault was made Chin Su Ying's companion fled and thus effected his escape. Chin Su Ying has been employed for some time at the Occidental Hotel. He has been a regular pupil at the Chinese Mission school. The murderers thought the lad was a Christian and for that reason alone they sought his life. The tragedy was witnessed by probably 150 Chinamen who were in the Joss house at the time. Chin Su Ying it appears was not a Christian although he was a regular attendant on the school. No sooner had the fatal work been accomplished than a number in the crowd (so it is stated) cried out "You have killed the wrong man." The affair created intense excitement among the Chinese population, and an immense crowd soon collected in and about the Joss house. Taking advantage of the excitement the murderers made their escape. However the young man who was with Chin Su Ying recognized the assassins and informed the police. Of course not one who saw the bloody affair, knew anything about it. To all interrogations by the officers they would shake their head shrug their shoulders and answer "Me no sabe."

Later in the afternoon one of the supposed murderers—Charlie Quang—was apprehended and is now in the city jail. The authorities are on the track of the other. The victim was about 18 years old, and was a steady industrious fellow. Evidently the whole thing was prearranged. The perpetrators of this dastardly and fiendish murder ought to be punished to the full extent of the law.

LATER.—Since the above was in type the other supposed murderer, Lee Chung was arrested and lodged in jail. At a late hour last night the unfortunate victim was still alive. He was insensible and the only token of life was a slight respiratory movement of the chest. His recovery is deemed hopeless.

HANDEL AND HAYDN CONCERT.

The music loving people of Portland will not be unmindful of the grand vocal and instrumental concert to be given this (Friday) evening by the members of the Handel and Haydn Society. Mr W H Kinross the experienced leader, will wield the *baton* in his usual proficient manner. One of the finest programmes ever offered the public of this city will be rendered. Part first will consist of "Farmer's Mass" in b flat, with full chorus and orchestra. Part second will consist of miscellaneous selections: Sextette, from "Lucia," "Honor and Arms," "Tramp Chorus," zither guitar and violin trio "Nancy Lee," Finale 3d act "Martha." A large number of seats have been sold and an overflowing house is assured.

The final rehersal took place last night and everything went smoothly. The postmaster general D M Key and suite will be present and with his honor the mayor will occupy one of the private boxes, and the opposite one will be occupied by Gen Howard and lady. This will no doubt be the most fashionable as well as one of the most artistic performances of the season. The ladies waiting room has been fitted up for the accomodation of those who may wish to attend in full evening dress. The concerts of the eastern vocal societies are almost all full dress entertainments and we don't see why Portland should be a whit behind. There are still a few seats left. Carriages may be ordered for 10 30.

COMMOTION AT UMATILLA

AN INDIAN KILLED PROBABLY FOR REVENGE—EXCITEMENT AMONG BOTH INDIANS AND WHITES—DANGER OF MORE GENERAL DISTURBANCE

Gen Howard is in receipt of news from Umatilla to the effect that an Indian belonging to the reservation has been killed on Wild Horse creek having been pierced by five balls. Also that another party of Indians riding across the country has been fired on with no effect, however other than shooting one of their horses. In consequence of these acts there is great commotion among the Indians who threaten to retaliate, and the whites are becoming alarmed in turn.

It is not known what persons have perpetrated these acts but it is supposed that they are men who are seeking revenge for the acts of some of the Indians last summer or belong to the desperate class who welcome any disturbance regardless of consequences to the country. Apart from the crime of assassination it is the worst policy in the world to encourage or permit these acts of desperation. The Indians, seeking revenge are likely to kill innocent and defenceless whites. In fact this result is just what may be expected. Then there will be another panic and stampede. People will fly from their homes and the scenes of last summer will be re-enacted. A few madcaps and assassins may do incalculable injury. These acts are the more unjustifiable from the fact that the Indians who took part in the outbreak of last summer are being ferreted out and will surely be brought to punishment. The murderers of Coggan six in number, are in custody and there is information which will surely lead to the apprehension of other participants in the outrages of last summer. Punishment will surely be meted out if these acts of revengeful violence do not balk everything. The people should make common cause against those who are so reckless as to jeopard the public peace by these acts of lawless retaliation.

On the 19th of September J K Mercer the business manager of the *Bee* had a street fight in Portland with A C Macdonald, of the *Evening Telegram* during which Macdonald was killed. The coroner's jury charged Mercer with murder. As far as the testimony has been published it would seem that the jury made a correct charge. The killing grew out of articles in the *Bee* defamatory of Macdonald and family.

WHAT CAUSED HIS DEATH?

MORE EVIDENCE IN RELATION TO STEVENSON'S DEATH—THE WATCHMAN OF [illegible] IRON WORKS IN [illegible] VIEW

In Thursday's daily it was reported that the body of William Stevenson a longshoreman had been found floating in the river and published what were presumed to be the circumstances of his death. Additional evidence which connects the watchman of the Willamette iron works in a[n] ugly prominence with the affair is given us by an employee of that establishment and is substantiated by others. He says that Stevenson came into a work shop of the iron works at the foot of E street, at about half past 8 o'clock of Tuesday evening, the 4th of September, the day when he is supposed to have been drowned in a very drunken condition and that one of the workmen ordered him to leave. He seemed willing to obey but was slow in doing so and the watchman then approached him and reiterated the command to leave. This aroused Stevenson's anger and when he reached the door at the north side of the building he stopped and commenced to harangue the watchman with drunken insolence for which he was pushed away from the door by that functuary. He returned, the watchman assaulted him with an iron bar about three feet long and over an inch through punching him severely in the abdomen several times and finally striking him a powerful blow over the head and felling him to the pavement. At this point our informant came out from the shop and made the watchman cease his inhuman work. He helped the poor fellow to rise and ask him if he was hurt and he answered that he was. He thought however that by waiting a little while to recover, he could find his way home. A few minutes later he walked towards the boiler-shop which is on a wharf at the rear of the works and as he did not return the watchman went out to look for him. He came back in a few minutes and reported that he could not find any trace of him. The eyes and head of Stevenson were bruised badly, but as it was thought possible that he had struck something in falling to the river these bruises were not considered by the coroner's jury. That the watchman went on the wharf where Stevenson was known to be and that he (Stevenson) did not come off but was afterward found drowned are regarded as suspicious circumstances and demand careful investigation.

MEMORIAL ON CHINESE IMMIGRATION

The following modification of the so called Burlingame treaty has been adopted by both branches of our Legislature:

To the Honorable Senate of the United States:

Your memorialists the legislative assembly of the State of Oregon respectfully represent:

That the continued immigration or rather importation of Coolies slaves or Chinese laborers, to this State is a violation of treaty stipulations which provide that such immigration shall be voluntary, and is a very serious injury to the laboring classes not only of our State but of the entire Pacific Coast by the reduction of wages to starvation prices.

That such importation of said Chinese and other Asiatic slave labor tends to drive white and all other free labor out of our country, and untimely compel all who subsist by manual labor to the alternation of choosing between starvation and crime.

That at least seventy five per cent of all the earnings of said Chinese or coolie labor, instead of being in our midst and thus contributing to our prosperity is sent to China never to return, thus withdrawing the coin from our country, and rapidly decreasing our circulating medium to the great injury of the best interest of this State and of the entire Pacific Coast.

That such Chinese laborers do not contribute to the wealth and prosperity of the country by the acquisition of property and the payment of taxes but by pauperism and crime are a continual source of expense to the country and municipalities of this State.

That the treaty of 1868 between the United States and China known as the Burlingame treaty has never been maintained on the part of China in accordance with its intent and meaning. The right of free migration and immigration which it recognizes was to be entirely voluntary and to be used in view of expatriation. The Chinese have no right to be admitted under the circumstances which they come here. They are usually brought in hordes in a condition of semi slavery, and obligated to perform a term of servitude. The privilege accorded to contracting parties was upon condition that the immigration to either country, by the citizens or subjects of the other should be a voluntary individual act. China has wholly failed to have that consideration observed, and the United States ought to revoke the privilege.

Therefore we, your said memorialists pray your honorable body to modify the treaty between the United States and the Empire of China so as to stop and prohibit the importation or immigration of Chinese and other Asiatic laborers to this coast.

Gents should go to Fishel & Roberts for suits of latest style.

LETTER FROM THE CAPITAL

SALEM Oct 3 1878

Yesterday afternoon the House settled the [question] of assistant secretary of state [and] rather abolished the office and provided $1 500 for the employment of a clerical force in that office. It was rather a defeat for those who opposed the original bill, that would have left $1 [illegible] 0 to be so employed that the special committee reported a smaller sum, but the $100 difference is not ruinous and as passed the house the matter is plain and consistent affording no ground for future electioneering capital. There was something not [illegible] in the [illegible] of [illegible] increasing the salary of assistant treasurer and it has figured heavily in the late campaign.

The house has on the table for action when it gets ready S J R No 3 that also passed the senate but is to be reconsidered the reason being that the resolution endorses the bill that passed the upper house of congress last winter extending the time for the construction of the Northern Pacific Railroad. Members say they do not know the specific provisions of that bill and there is a general disposition to go slow and not endorse a measure they may on better acquaintance not approve but instead thereof amend the resolution so as to simply favor extension of time to that company. There is a warm sentiment in favor of the Northern Pacific road, and a belief that it is the essential thing for securing the future prosperity of the state. In the interesting lecture delivered last evening by Rev [illegible] S Knight an abstract of which I send below he showed the great results to this region and to the whole nation, to follow its construction.

Watt's bill for the insane will receive many amendments and may not pass even then but the general opinion is that the state has a tremendous bill to pay for this [illegible] purpose, and while the charity will continue and good treatment of the insane be insisted upon there is a feeling that some charity is due the taxpayers. The difficulty is to secure in the brief period of forty days enough consideration for these important measures. Dr Hawthorne is the only person prepared to deal with the question on short notice and with his genial and persuasive ways he accomplishes more than many men can do with heavy cash outlay. The doctor would like a longer contract at a somewhat less figure he tells me and in that case the state should prepare to keep the insane at the end of the contract. To lease our unfortunate fellow citizens out to the lowest bidder would meet with great opposition unless guarded so that they would receive all proper care and be treated with judgment. It is not easy to defeat the doctor's plans as has been proved by many sessions. He is too many for his opponent has too much means invested.

This morning the house has received reports of committees only and my report of the proceedings covers the whole ground. The senate has had introduced a host of new bills an innumerable cloud of them, and it will cloud the reason of some of them and as if they all receive full attention in the two weeks left us.

To-morrow evening the citizens give a legislative ball that will be a grand affair and the members can have all the hospitality they will pay for. So far there has been no general hospitality extended to the members at any of our delightful Salem homes.

The lecture of Mr Knight which follows was a very fine effort and should be repeated in your city. [It will appear to-morrow—Ed.]

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language But where he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness

DR. BRENAN

has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs including Spermatorrhea Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual This accounts in part for this great professional success

All surgical operations can be performed by his skillful hand and the patient need not fear the re[illegible]

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors through pretended friendship for the patients Look out for them , they are knaves prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M BRENAN, the *Medical Lecturer* and read his sign on his door
